Western Shooting Notes

- The shocking fact that Western shoots near 50% of their shots uncontested is an indication of how much movement and space their offense is able to create
- Western loves to run into the paint if they do not have an open shot at 35% lay up usage percentage, they rank amongst the league leaders in lay up users
- The high lay up usage paired with over 1 point per possession and of 50% scoring rate means they love going for lay ups and getting fouled

More Notes Regarding Western

- Westerns worst defensive action is a cut play where as McMasters best offensive action is the cut as well
- Another Flaw is Westerns inability to protect their own paint. If McMaster is able to get over 10 offensive rebounds it would benefit the team greatly
- McMasters most effective 2 sources of scoring points (score % wise) are the pick and roll with the ball handler and roll man respectively. This includes the pick and pop

Connor – 20.2%

Dave – 17.5%

Jordan – 15.3%

No one else on the team has a usage percentage above 10%.

Can someone show they can step up and take a leadership role for the team?

1st

McMaster is 1st in all of Canada for unguarded shot. McMaster scored on every 1 more against the past 3 opponents however have only gotten those 1 More's in winning quarters (quarters where they outscore opponents)
